## EDUCATION

---

SEPTEMBER 2015-2021: Bachelor Of Computer Science, **Free University**, Tbilisi

## WORK EXPERIENCE

---

*September 2019 - present*

Analyst/Developer (Android) at **BANK OF GEORGIA**

Bank of Georgia is the largest commercial bank in Georgia.

**BOG App** is the app offering individual mobile banking service to customers with over 1M+ installs, 1.2M+ monthly and 500K+ daily active users (Jan 2023).

Apart from working on small patches and updates, I've worked on the following larger subjects so far:

- Implemented Digital Card ordering and detail retrieval in BOG App.
- Implemented CreditInfo checking module in BOG App.
- Implemented remote client operation confirmation in BOG App.
- Implemented upcoming service commission payments in BOG App.
- Implemented become **SOLO** applications in BOG App. (SOLO is a premium status membership offered by Bank of Georgia.)
- Implemented MCC payment blocking and enabling via BOG App for debit and credit cards.
- Integrated **Identomat** document recognition library in application's registration process.
- Fully implemented moneybox/piggy bank feature in BOG App.
- Fully implemented the redesign of Debit card ordering process in BOG App.
- Fully implemented the redesign of deposit and bond details in BOG App, including setting the deposit goal and closing deposits.
- Initiated supporting dark theme in the BOG App and implemented it on a large portion of the app's screens.
- Converted various features that was written in Java legacy code to new, modular clean architecture pattern.
- Took a part in migrating BOG App to the new Biometric API.
- Worked on the cross-application Design System and SSO libraries that will be used by Retail Mobile Bank, Business Mobile Bank or any other application the company might develop in the future.
- Helped various new team members and outsource contractors with the onboarding process in the development team.

*April 2019 - August 2019*

Junior Android Developer at **WANDIO**

Was a junior developer for the **Cashback 365** Android app for Liberty Bank

*July 2018 - October 2018*

Intern Java Developer at **FINA LLC**

*March 2017 - August 2018*

Teaching Assistant at **FREE UNIVERSITY of Tbilisi**
